## Attention, Mr. Farmer

C. M. Jones, Manager. R. B. Holton, Asst. Manager.

Many farmers have begun to see the light at "THE LIB-  
ERTY WAREHOUSE," of Maysville, Ky., which is not in  
the "COMBINE," and has the largest sales floor in Maysville  
and second largest in the county. The managers of THE LIB-  
ERTY WAREHOUSE promise the farmers nothing more than  
the best they can do as tobacco warehouse men. We do not  
claim that which is not ours by right, and have no time to  
knock other markets, as we are too busy boosting our own  
sales and the result is that new faces are seen on our sales  
floor each day and those faces are wearing a smile when their  
owners leave town.

Mr. A. M. Perry is our auctioneer and the man who helps  
you get the high dollar.

Let Charlie Jones place a smile upon your face by selling  
your tobacco with him where every man gets a square deal.

### SEVERE COMPETITION FROM JAPAN.

Washington, January 3.—P. L. Gutterman of Gutterman, Rosenfeld & Company, of New York, importers and exporters, returned from abroad recently. He advises American manu-  
facturers and merchants who hope for a continuance of a large export trade when the European war is over that they will be obliged to contend with severe competition on the part of Japanese producers, who are imitating German products and selling them at low prices in Russia, England and other countries. "The Japanese manu-  
facturers," says Mr. Gutterman, "have already been clever enough to get hold of any quantity of German samples in various lines and they are imitating these exactly and offering them to England at prices in many instances as low as, or even lower than formerly paid to German factories."

Investigations of the Chamberlain British tariff commission made a few years ago developed the fact that, on an average the wage scale in Japan and other oriental countries was one-sixth that of England. And the Eng-  
lish wage scale is less than one-half that of the United States. As two-thirds of cost of producing merchan-  
dise in the United States is paid to labor, what suggestions have our Demo-  
cratic friends to make in regard to competing with a country whose wage scale is less than one-twelfth of our own?

And now the dear constituents will receive sundry copies of fervid and oratorical speeches which Congress-  
man So and So never delivered.

January 1st is noted for two things. It ushers in a new year and a grist of bills.

### SCIENTISTS EXPECT TO HEAR PRESIDENT TOMORROW.

Washington, January 4.—The big  
scientific congress, which has brought  
together over a thousand eminent edu-  
cators, publicists and scientific men  
from two continents, will have a di-  
vision tomorrow, if President Wilson  
is able to keep his promise to address  
the congress. Ever since a week ago  
last Monday the leaders of thought in  
North and South America have been  
thrashing out the great questions of  
the day. The closer union of the big  
and little republics of the west is one  
of the notable results and according  
to some of the enthusiastic delegates  
from the Latin American countries,  
"we are beginning to know one an-  
other." Another event looked forward  
to is the White House reception Fri-  
day, the first Pan-American reception  
ever held there. The closing exercises  
of the congress will take place on Sat-  
urday when important resolutions will  
be acted upon.

day begin sixteen weeks' training.

### NATIONAL DEFENSE

Congress To Tackle the Question—  
Revenue Measure and Pork  
Barrel Bills Sizzling.

Washington, January 4.—Just how  
far the United States will go in the  
matter of preparedness for national  
defense is the problem that Senators  
and Representatives are tackling this  
week. Much has been written and  
said from all angles and the subject  
has been before the American people  
for over a year. There is a wide di-  
vergence of opinion as to how far to  
go; but the statesmen at the capital  
are generally agreed that something  
must be done. The shifting of a policy  
of long standing, the sudden awaken-  
ing that danger lurks despite the su-  
perficial joining of hands by nations  
for universal peace, and the deter-  
mination of President Wilson that  
America must prepare to assert itself  
have the general endorsement of the  
people.

The administration has put the soft  
pedal on "pork barrel" appropri-  
ation measures, but there is an insistent  
demand from various localities that  
they go through, and the attitude of a  
number of Representatives may  
threaten the defense measure. Chair-  
man Sparkman of the rivers and har-  
bors committee is disposed to report a  
bill calling for at least \$40,000,000.  
Chairman Shackelford of the good  
roads committee is introducing a bill  
appropriating \$25,000,000 more, and  
the public buildings committee has de-  
cided to go ahead with its omnibus  
bill. The ways and means committee  
is in a quandary regarding the means  
of raising revenues to meet even the  
defense program and if the fifty to  
one hundred millions additional is  
voted, the revenues situation will be  
seriously complicated, it is said.

It is predicted that there will be  
fairly clear sailing for the naval in-  
crease program recommended by Sec-  
retary Daniels. These proposals will  
undoubtedly be attacked as too mod-  
erate, and the main argument ad-  
vanced against them may be the sug-  
gestions of the naval general board,  
which call for an increase some three  
times as large as the administration  
believe that practically all of the money  
to be voted for additional prepared-  
ness should be spent on the navy,  
and they base their belief on the show-  
ing of the British fleet during the pre-  
sent European war. It is argued that,  
with the United States occupying an  
isolated position, a strong fleet would  
prevent invasion from abroad and give  
the nation plenty of time to recruit,  
train and equip an army sufficiently  
large for any eventuality.

But the disagreement on the naval  
appropriation will be insignificant in  
comparison with that of the army. The  
formation of a continental army as  
proposed by Secretary Garrison is  
very unpopular with both houses of  
Congress. The proposal is criticized  
by those who want a strong standing  
army, by those who believe the plan  
will not work out by those who favor  
this or that scheme for attaining  
greater military efficiency, and by the  
"little army" men. Chairman Hay of  
the house military committee has in-  
troduced a bill that omits any pro-  
vision for the continental army pro-  
posed by Secretary Garrison. Gossip  
has attributed disagreements to Sec-  
retary Garrison and Representative  
Hay that are cited as a cause for their  
failure to work together.

### MANUFACTURERS DEMAND MORE DYES.

New York, January 4.—Representa-  
tives of nearly fifty associations in var-  
ious sections of the country will meet  
here tomorrow to formulate a new  
move to obtain greater supplies of an-  
iline dyes. The important textile in-  
terests of the country will be repre-  
sented, and it is said that many will  
report that large industries face a  
shutdown unless the situation is re-  
lieved before spring. The meeting to-  
morrow will be under the auspices of  
the National Association of Clothiers.  
It is said that an appeal to the gov-  
ernment to compel Great Britain to  
release cotton so that Germany will  
permit the exportation of aniline  
dyes will be formulated at tomorrow's  
meeting. The advisability of asking  
Congress to immediately pass a tariff  
bill to encourage the development of  
the dye industry in this country will  
also be considered.

### OF LOCAL INTEREST

Some People We Know, and We Will

This is a purely local event.

Any article that is endorsed at home

Mrs. Dora Mefford, Maysville, says:  
"I had been feeling poorly for some  
time before I knew that my kidneys  
were at fault. I was nervous and  
dizzy and my back and head ached.  
I rested poorly and mornings I was  
all tired out. I read in a local paper  
how a neighbor had been cured of  
kidney trouble by Doan's Kidney Pills.  
I used them and before long I felt  
stronger and better and I slept good  
at night."

### BASEBALL BARNSTORMS BOARD BOATS.

New York, January 4.—Arthur Ir-  
win and Joe Higgins, two big league  
scouts, have recruited a baseball team  
from semi-professional and major  
league ranks with which they will sail  
today for Cuba, Porto Rico and Pan-  
ama. The government will pay the  
expenses of the team in Panama, as  
they will play games with all the lo-  
cal teams on the isthmus.

We can make this a prosperous year  
if we get together and pull together.  
Let's get and let's pull.

### SAVES DAUGHTER

Advice of Mother no Doubt Pre-  
vents Daughter's Untimely End.

Ready, Ky.—"I was not able to do  
anything for nearly six months," writes  
Mrs. Laura Bratcher, of this place, "and  
was down in bed for three months."  
I cannot tell you how I suffered with  
my head, and with nervousness and  
womanly troubles.

Our family doctor told my husband he  
could not do me any good, and he had  
to give it up. We tried another doctor,  
but he did not help me.

At last, my mother advised me to take  
Cardui, the woman's tonic. I thought  
it was no use for I was nearly dead, and  
nothing seemed to do me any good. But  
I took eleven bottles, and now I am able  
to do all of my work and my own  
washing.

I think Cardui is the best medicine in  
the world. My weight has increased,  
and I look the picture of health."

If you suffer from any of the ailments  
peculiar to women, get a bottle of Cardui  
today. Delay is dangerous. We know  
it will help you, for it has helped so  
many thousands of other weak women  
in the past 50 years.

At all druggists.

### We Are Not Trying To Sell

### ALL THE TOBACCO

but trying, hard and faithfully, to

### SELL WELL

what we do sell.  
We appreciate selling high  
priced crops and choice baskets of  
Tobacco; but, we are more con-  
cerned about what the average of  
the market is and how we are  
standing, with reference to the  
average.

What one crop or one basket  
brings only helps one seller; but,  
what the average is tells the tale  
for all the people. As long as we  
are able to sell Tobacco above the  
average of the market we shall  
continue to feel that we are re-  
dering our full duty to our cus-  
tomers, the people and the market.  
As you know we do not buy any  
crops with a view of "boosting"  
our average. We simply sell ev-  
erybody's Tobacco as it comes,  
giving to each crop the same care  
and attention and sorting every  
load thoroughly.
